Work Experience

Loadmill, Senior Front End Developer · Jan 2022 - Present

- Owner of all things Front End at Loadmill - including architecture, process, and research.
- Built the API testing app into a robust, well-rounded product, ready for usage at scale.
- Mentored all junior developers at the company on the subjects of scalable and consistent Front End practices.

Loadmill, Front End Developer · Oct 2019 - Jan 2022

- React, Mobex, Typescript. Lead the evolution from POC to a functional product, on the Front End.
- Using Material UI as a design system and custom CSS I created a new navigation, test editor, filtered tables, settings, integrations, and many more UI features.
- Handled Back End features as needed to support the company's overall efforts.

MySize ID, Full-Stack Developer · Oct 2018 - Sep 2019

- React, Ruby on Rails, Postgress, vanilla JS and CSS
- First developer to join the team, starting the company's transition into in-house development.
- Developed and maintained all server-side functionality for both mobile and web apps. Worked on a variety of frameworks and projects, from Shopify extensions to the algorithm for calculating garment sizing as a widget app.

Other Cool Stuff

[Clicks of Unicorns](#) · 2020

A Chrome extension that shoots emojis from your cursor, vanilla JS, CSS.

[Alona.Design](#) · 2021

A responsive design portfolio, allowing the designer complete artistic freedom. React, CSS.

[Sanbira.Band](#) · 2022

A responsive fast rollout site for a local band, just in time for their tour and EP release. React, CSS, and Contentful (CMS) for independent content management and upkeep.
